Sir:

On March 4, 2002, Applicants filed an Information Disclosure Statement in the above-captioned matter. In the Information Disclosure Statement, Japanese Patent Publication No. JP8-263326, which was discussed on page 3 of the specification of the present application, was brought to the Examiner's attention, a copy thereof was provided to the Examiner, and a Form PTO-1449 was also provided.

Also provided was an English language abstract of the Japanese Patent Publication, also cited on the Form PTO-1449. Although all of the patent documents were initialed, the English abstract translation was not initialed on the Form PTO-1449. To complete the record, Applicants assume that the English language abstract of the Japanese patent was considered by the Examiner during consideration of the underlying document.

Although no response to the above statements is deemed necessary, should the Examiner have any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,  
Yoshitaka SUMIDA
